\*\*The Exclusive Walters Buildings Dealer in Michigan\*\*

February 7, 2023

To Target Marketing Solutions,

Whatever is it you do for business, you do it well. But when it comes to website advertising, let Target Marketing Solutions do what they do best – websites.

The TMS staff is top notch – bar none – in my opinion. They work with you through every aspect of your design. They know how the website world works and what people are looking at, and how they look for you and your business. I like to say “genius.”

I am a dealer for a large pole barn company covering Michigan. At times, I’ve had more leads than the parent company and their numerous offices.

Target Marketing Solutions is an opportunity for you to excel in sales through them. No question.

Thank you Target Marketing for a job well done for me!

Sincerely,

Robert (Buck) J. Bertram Jr.  
President  
Buck & Bossman Construction
