VEHICLE APPEARANCE SPECIALISTS

April 26, 2013

To whom it may concern,

I engaged Target Marketing Solutions to optimize our website on the recommendation of one of their existing clients. I simply could not be happier. Target Marketing has been excellent to work with and have delivered on everything they promised. I had tried traditional marketing through news print and periodicals with little measurable results. I even had a pre-existing website that really didn't seem to be attracting much additional business. That all changed after TMS redesigned and optimized the website. My business has exploded, and we can track virtually all of the new business to the website. I have even attracted business from outside of our primary service area because they liked what they saw online. I give TMS my highest recommendation.

Sincerely,

Chris Zguris, Owner
