Hi Nick and Ann,

I wanted to let you know what I think of the website you built for me.....

I was contacted by a company that found us on the internet when searching for a tool and die company to do work for them. I don't know if it was what Target did for us or not but they visited our web site, was impressed with what they saw and gave me a call. After visiting our facility and liking what they saw and listening to my sales pitch, we were awarded some work, then some more, then some more....

One hit and your work and the money we spent with you was well worth it.... and it's still producing.

I know it wasn't easy dealing with me and we still have some fine tuning to do to the pages on our website, but I am extremely happy and I know I wouldn't have this new customer without you.

Thank you...Thank you... Thank you!

Regards,

Scott Strodtman
